

AWARDS

There are several awards given by the Society. The Walter Reed Medal, the Ben Kean Medal and the Joseph Augustin LePrince Medal are given sequentially every third year, whereas the Bailey K. Ashford Medal is given annually. The Donald Mackay Medal is given annually with recipients chosen in alternating years by the American Society of Tropical Medicine and Hygiene and the Royal Society of Tropical Medicine and Hygiene. These awards, as well as Certificates of Recognition, are selected by a committee composed of the immediate three past presidents of the Society. Nominations for these awards may be submitted by any member and should briefly summarize the candidate’s qualifications and accomplishments. Young Investigator Awards are selected based on presentations made at the annual scientific meeting of the Society.
